## About the Beneficiary: Cerebral Palsy

More than 3,000 children from around the world receive care at the Nemours Cerebral Palsy (CP) Center every year. At the center, Nemours orthopedists, neurologists and researchers work together to do whatever it takes to help children with CP live their fullest lives.

The center is internationally renowned for its expertise. A Night at Nemours is the final step toward fully funding a \$2-million endowment for CP, which will provide perpetual funding to improve clinical care and research to help families facing a CP diagnosis.

Thank you for your support! Together, we can support children today and far into the future.
